HISENSE GROUP

Established in 1969 and headquartered in Qingdao, China, Hisense Group owns five publicly listed companies: Hisense Visual Technology, Hisense Home Appliances, Sanden Holdings, Changelight, and KE Electric, with multiple brands under its umbrella, including Hisense, Toshiba TV, Ronshen, Kelon, gorenje, and ASKO.

Hisense Group has stood firm for 56 years with the development strategy of "Sound Technological Foundation and Robust Operation", accelerating the transformation and upgrading toward industrial advancement and high-end industrialization, forming Smart Life, Smart Energy, Semiconductor, Automotive Electronics, and other industrial clusters.

CROSS DOOR

Seamlessly integrated into your kitchen, cross door refrigerators have three different compartments with flexible temperatures. Refrigerators with My Fresh Choice compartment additionally allows you to store food and drink at any temperature between -18°C and 5°C depending on your needs.

Fridge Wide, Freezer Slide – Effortless Hybrid.

PUREVIEW DOOR

This sophisticated transparent window gives you instant visibility into your fridge contents without even opening the door. With two intuitive lighting options, you can choose the way you want to see inside: TouchLight lets you simply tap to illuminate or turn off the window, while SenseLight automatically lights up as you approach within one meter—perfect for when your hands are full.

INTELLIGENT HUB

Experience the future of kitchen technology with the Intelligent Hub—a sleek 6.86-inch touchscreen seamlessly integrated into your refrigerator door. This intuitive command center puts complete control at your fingertips, from managing food inventory and expiration dates to discovering new recipes and creating custom beverage experiences.

ADVANCED UV WATER TREATMENT TECHNOLOGY

Enjoy cleaner, faster refreshment with the Advanced UV Water Treatment Technology. Connected to a plumbed water supply and equipped with a built-in filter, it delivers a continuous flow of fresh, great-tasting water. Advanced UV sterilisation eliminates 99.9% of bacteria, so every drop is purified for your peace of mind.

HiSmart

Striving for innovative smart technologies for enhanced living.

BEVERAGE MASTER

Elevate your beverage game with Beverage Master, featuring an extensive library of over 20 professionally crafted drink recipes that transform your kitchen into a premium café and cocktail lounge. From perfectly balanced espresso drinks and artisanal cold brews to sophisticated cocktails and refreshing mocktails, each recipe includes detailed step-by-step instructions, precise measurements, and complete ingredient lists.

VOICE CONTROL

Embrace truly hands-free convenience with advanced voice control technology that understands and responds to your commands. Whether your hands are covered in flour while baking or you're juggling groceries after a shopping trip, simply speak naturally to receive timely reminders about expiring ingredients, ask for step-by-step instructions on how to prepare your favorite beverages, or control other connected smart home devices.

FOOD INVENTORY

The food inventory feature allows you to view and manage the food in your refrigerator. You can add the items, name the items and set the expiration dates, then you'll receive notifications when they are about to expire.

IMPRESSIVE RECIPES

The impressive recipe feature gives you access to around 200 recipes and helps you decide what to cook for the week, reducing the stress of running out of dinner ideas. It provides a more comfortable viewing experience.

CONNECTLIFE

Manage all your connected household appliances through the unified ConnectLife platform on your refrigerator. View the status of your devices on the high-end large screen, enriching your smart lifestyle.

HiComfy

Enhance the pleasure of your kitchen adventures.

CANTILEVER SHELVES

Experience a fridge that adapts to your needs. The innovative and fully adjustable shelving system adapts to your needs and glides effortlessly to accommodate overflowing baskets, towering bottles or that award-winning three-layer cake. No more tetrising groceries - unlock limitless possibilities and tailor your fridge to fit your food.

EXPRESS ICE

Never run out of ice again with Express Ice. Producing up to around 4.2kg every 24 hours up to 50% faster than traditional ice-making systems, it keeps you ready for every moment, from weekday dinners to weekend parties. Whether you're topping up a drink with smooth crescent ice or cooling down quickly with crushed ice, you're always in control.

LARGE CAPACITY

Hisense's large capacity fridges ensure you can store any shape, size or type of food and do all your weekly shopping. You can comfortably fit up to 630 liters at a time. The four door design ensures you can find everything you need at a glance.

SLIDING SHELF

Thanks to Hisense's sliding compartment, you can store larger items in your fridge, such as large bottles, jugs or tall cake bases. Simply slide the front half of the shelf inwards and you'll have more space above your head.

HiStyle

Practical design decisions,
ensuring an ideal match for every kitchen.

METAL GLIDE DRAWERS

With Metal glide drawers from Hisense, you can switch to durable, robust storage. Thanks to sturdy metal runners, the drawers glide open and close smoothly, making it easy to view large items inside. You no longer have to worry about heavy objects—the elegant metal construction can handle it all.

PREMIUM FLAT DOOR DESIGN

The premium appearance achieved by Hisenses flat door design integrates the refrigerator into the kitchen cabinets. It gives the refrigerator a smooth, flat surface when viewed from the side, maximizing space utilization and creating the overall premium look.

DARK STAINLESS STEEL FINISH

Make a bold design statement with our premium Dark Stainless Steel finish that combines striking visual appeal with practical durability. This sophisticated surface features a rich, deep tone complemented by a subtle reflective sheen that adds dramatic depth and contemporary elegance to any kitchen design.

HiFresh

Preserve your food's chill,
freshness, and safety for an extended period.

ANTIBACTERIAL GUARD

A breakthrough in freshness preservation, this refrigerator keeps your food fresh for a longer period. Thanks to the highly effective antibacterial liner inside, the fridge stays bacteria-free, making it cleaner and healthier to use. You can be sure that every time you reach for a crisp apple or vibrant greens, the drawer has preserved both its hygiene and original taste.

COOL FRESH BOX

Savor the best in freshness preservation with the Cool Fresh Box/0°C Fresh Box. This specialized zone offers an optimal storage environment, ensuring fruits and vegetables stay fresh for longer. It's not just a refrigerator; it's a precision-engineered freshness solution, bringing you the perfect blend of nutrition and advanced technology.

MY FRESH CHOICE

Maintain complete temperature control by customizing your storage space with the My Fresh Choice zone. Effortlessly convert it from fridge to freezer, adjusting temperatures from -20°C to $+5^{\circ}\text{C}$ based on your storage preferences. Tailor the temperature to create an optimal environment for your food, effectively extending its freshness and preserving its exquisite taste.

HiECO

Innovative green solutions for energy efficiency.

DOOR ALARM

This function will alert you if you'd left the fridge or freezer door opened. The smart sensor will detect that the doors are open, and keep the food freshen.

SIDE BY SIDE

The independent temp control cools the fridge and freezer separately so as to keeps the ideal level of temperature and humidity in both fridge and freezer, providing the optimum preservation conditions for different types of food and preventing dour transfer between food.

Left Frozen, Right Fresh : Organized Cold in Seconds.

PREMIUM FLAT DOOR DESIGN

The premium flat door design with recessed handles makes the refrigerator discretely integrated within the kitchen cabinets. It makes better use of space and creates a seamless built-in look.

CONNECTLIFE HUB

Digitize your kitchen with the 21-inch smart screen integrated into the Hisense refrigerator. This appliance is not merely a refrigeration unit; it serves as the cornerstone of a comprehensive digital kitchen transformation. Seamlessly connect it with your phone or other smart devices for an integrated smart home experience.

ICE & WATER DISPENSER

This very convenient on-door ice and water dispenser can produce 1.2 Kg ice for the whole family in a day. Without opening the fridge door, you can choose out of cubed ice, crushed ice or chilled water, whatever and whenever you want. Hassle-free way of getting your cold drinks.

HiSmart

Striving for innovative smart technologies for enhanced living.

MESSAGE BOARD

You can use message board to leave reminders or post notes for your family. This is a fun and helpful feature that you will love.

ALBUMS

You can share your favorite photos from phone to the big touch screen by BT on the refrigerator to share cherish memory and photos from your life. You can also set these photos as screensavers for better display.

PHOTO WALL

Our Photo Wall function allowing you to showcase photo collage in the second screen. You can easily arrange your photos in different combinations and layouts, and even crop them to your liking. You can also set the photo wall as a screensaver as a photo.

SCREEN SHARING

Need to cook meal but don't want to miss what's happening during the big game? You can mirror your phone to the big touch screen on the refrigerator. Never miss any great moment, even when you're in the kitchen.

SHOPPING LIST

The shopping list feature allows you to stay organized before going to the store. You can create a shopping list using touch screen, and it will be automatically updated on your smartphone. You are able to know what need to buy and put the food in appropriate compartment.

FOOD INVENTORY

The food inventory feature allows you to view and manage the food in your refrigerator. You can add the items, name the items and set the expiration dates, then you'll receive notifications when they are about to expire.

CHEF RECIPES

The chef recipes allow you to access 182 recipes and help you decide what to cook for the week, reducing the stress when you are out of dinner ideas. You don't need to stare at the tiny screen of your mobile phone any more, the big touch screen gives you more comfortable viewing experience.

CONNECTLIFE

Manage all your connected household appliances through the unified ConnectLife platform on your refrigerator. View the status of your devices on the high-end large screen, enriching your smart lifestyle.

WEATHER

With the ability to set your location, you can now stay up-to-date with 44 different weather conditions, no matter where you are. The real-time temperature and icon display makes it easy to plan your day, whether you're heading out for a day of adventure or staying cozy indoors.

SELF DIAGNOSTICS

The self diagnostic feature allows you to quickly check diagnostic results. The refrigerator will perform a self-diagnosis scan and report any problems found. If the refrigerator detects an issue, it will display detailed information and let you provide those information to customer service so that your problem can be dealt with faster and more efficiently.

TIMER

Set a countdown to zero to assist you in cooking with ease. Choose your preferred notification sound, food icon, and custom name. You don't need to distract yourself until you're reminded 10 seconds before the countdown ended.

HiStyle

Practical design decisions,
ensuring an ideal match for every kitchen.

ELECTRONIC TOUCH CONTROL

Master your control with Hisense's Electronic Touch Control. This intuitive LED touch panel empowers you to make precise temperature adjustments and access a host of additional features. Its sleek design and user-friendly placement make it a joy to use. Take control like never before with this masterpiece of innovation.

INTEGRATED METAL RECESSED HANDLE

The recessed handles are the perfect combination of style and function. The ergonomic grip provides a modern feel and perfectly fits with any existing kitchen design.

SOFT LED LIGHTS

Brighter and more efficient than standard fridge bulbs, Soft LED lights illuminate the contents of your fridge while remaining gentle on the eyes. More importantly, it also saves energy.

CONCEALED HINGE

An elegant frontal view with concealed hinges provides a seamless appearance while significantly minimizing the risk of scratches or other damage to your cabinets.

MULTI-USE BEVERAGE TRAY

A dedicated and stylish space for wine and soft drink bottles, which frees up space in your fridge door and prevents bottles from rolling around on the shelves. Additionally, the high-quality finish makes the rack incredibly durable and easy to clean.

HiFresh

Preserve your food's chill, freshness, and safety for an extended period.

SNACK BOX

It provides a separate storage area, keeping snacks neatly organized and easily accessible. This dedicated space helps maintain the freshness of snacks, preventing odors from mixing with other foods. With this snack box, you can always enjoy your favorite treats in the best condition, adding convenience and enjoyment to your daily life.

MOISTURE FRESH CRISPER

The fruit & vegetable drawer with a moisture adjustable system allows you to regulate the humidity in the drawer manually to meet different storage requirements of your food and therefore keep fruits and vegetables fresh, crisp, and delicious longer than the traditional refrigeration.

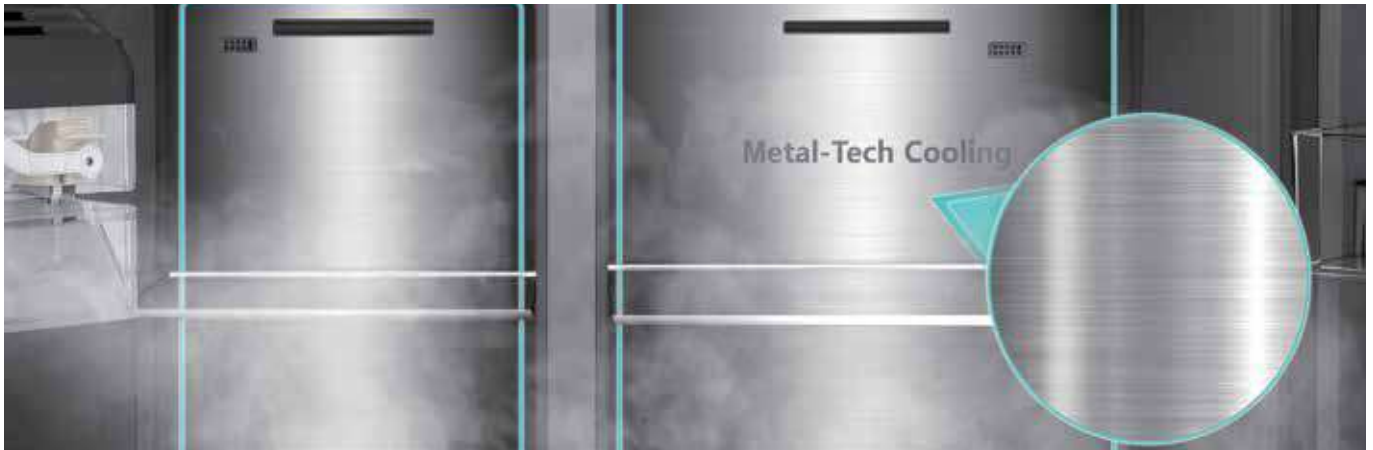

LARGE FRUITS & VEGETABLES CRISPER

Our Large Fruit & Vegetable Crisper offers a more convenient experience with extra space for fruits and vegetables. It is a perfect solution for bulk storage, allowing you to bring home as many fresh fruits and vegetables as you like from the supermarket.

ANTIBACTERIAL GUARD

A breakthrough in freshness preservation, this refrigerator keeps your food fresh for a longer period. Thanks to the highly effective antibacterial liner inside, the fridge stays bacteria-free, making it cleaner and healthier to use.

METAL-TECH COOLING

Redefine refrigeration elegance with Hisense's Metal-Tech Cooling. This ingenious feature combines a metal back wall for consistent, energy-efficient cooling with a sleek design, enhancing your kitchen's style and functionality. Embrace a new standard of freshness and premium aesthetics in one sophisticated package.

HiComfy

Enhance the pleasure of your kitchen adventures.

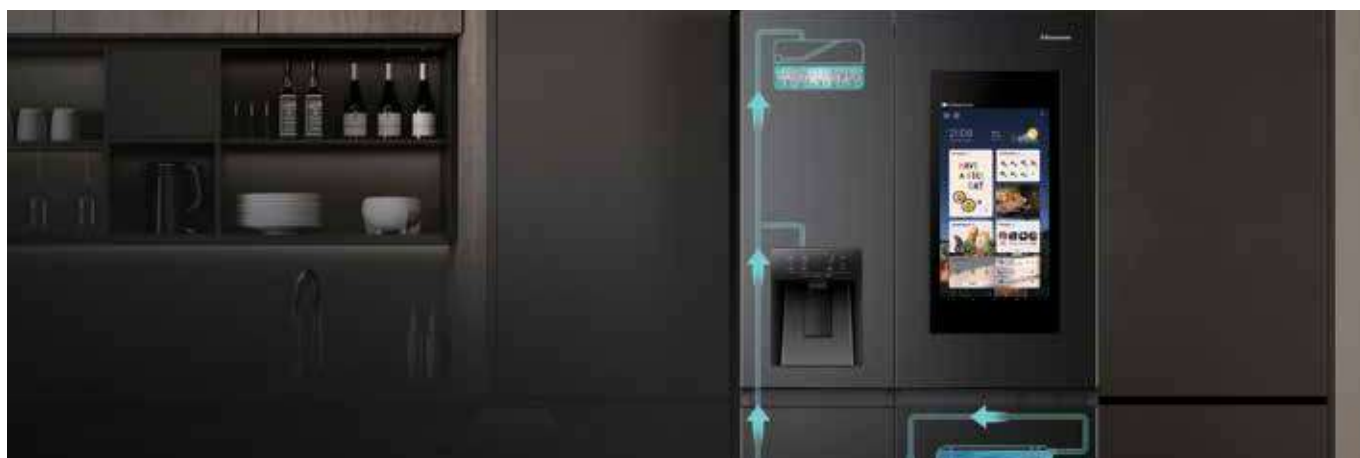

LARGE CAPACITY

Hisense's large capacity fridges ensure you can store any shape, size or type of food and do all your weekly shopping. You can comfortably fit up to 553 liters at a time. The four door design ensures you can find everything you need at a glance.

XXL DOOR BALCONY

The XXL Door Balcony from Hisense is the solution for larger items. The refrigerator's XXL Door Storage provides the perfect place to store larger items. The 105 mm wide shelf is up to any challenge and gives you quick access to the items you need most.

NON-PLUMBED ICE & WATER DISPENSER

Escape the shackles of plumbing! The water tank without a water connection unleashes a cascade of crystal-clear water whenever you crave it. The days of installation costs and rigid positioning are gone. This water tank integrates effortlessly into your fridge and quenches your thirst in a flash.

HiECO

Innovative green solutions for energy efficiency.

DIGITAL TEMPERATURE SENSOR

Multiple highly-effective Digital Temp Sensors are built into the refrigerator (as shown here), which are engineered to optimally adjust the cooling level of the fridge.

TOP-MOUNTED

Our refrigerators are designed to be your ultimate food management experts. The Top-Mount NoFrost Series utilizes total no frost technology and a multi airflow system to keep your cherished food fresher and more nutritious for longer. A 90-degree door opening, deodorizing filter, and reversible door design all come together to deliver an exceptional user experience.

Envelop Your Food in Freshness

FAST FREEZE

Super Freeze rapidly lowers the freezer temperature to -24°C , freezing your food much faster than usual. Preserve your food's natural taste, texture, vitamins and minerals with a only a touch of button.

NON-PLUMBED WATER TANK

The stylish non-plumbed water tank offers you everyday convenience of cooled water, while also ensuring your fridge remains quick and easy to install, with no need for plumbing.

LARGE CAPACITY

There's plenty of space in the fridge and freezer to store any shape or type of food. The doors can be opened out wide, so you can see everything at a glance.

HiFresh

Preserve your food's chill, freshness, and safety for an extended period.

LARGE FRUIT & VEGETABLES CRISPER

Deeper and wider crisper allow you to take the supermarket home, providing you with enough space to store large and more items.

FRESH ZONE

A separate zone in the upper fridge, with a lower temp than the whole compartment, so fish and meat can be stored hygienically considerably longer, so it's perfectly fresh when it comes time to cook them.

MULTI AIRFLOW

Thanks to the even distribution of cold air achieved by the smart Multi Air Flow System, optimal temperature is consistently maintained throughout your fridge freezer. It helps keep your food chilled to perfection no matter where it is placed.

Frost | Ice build up

Toatal No Frost | Ice build up

TOTAL NO FROST

With Total No Frost technology, there is no ice build up in the appliance, making defrosting a thing of past. It will also keep your food fresh and nutritious for longer time.

HiStyle

Practical design decisions,
ensuring an ideal match for every kitchen.

MAGNETIC DOOR SWITCH

You can no longer see the usual door switch in this series product because of the magnetic technology. The magnetic door switch makes interior linear look clean than before.

COUNTER DEPTH

This series products will fit perfectly into your kitchen with the new counter depth design-600 mm, while offering plenty of flexible storage.

ELECTRONIC TOUCH CONTROL

This user-friendly control enables you to easily set the temperature inside the fridge or freezer according to your food need. It's super clear, easy to reach and simple to use.

SOFT LED LIGHTING

Soft LED lighting is designed for more clear overview of the contents of your fridge and freezer. The light is brighter and more efficient than standard fridge bulbs, and it also saves energy.

WINE RACK

A dedicated and stylish space for wine and soft drink bottles, which frees up space in your fridge door and prevents bottles from rolling around on the shelves.

HiComfy

Enhance the pleasure of your kitchen adventures.

SLEEK WATER DISPENSER

A sleek water dispenser that seamlessly integrated to the flat door of the refrigerator. Just pour fresh water in the water tank and enjoy it perfectly chilled, anytime.

HiECO

Enhance the pleasure of your kitchen adventures.

DURABLE INVERTER

Modern inverter compressors measure the conditions inside your fridge and adjust the cooling output accordingly, to ensure a stable temperature, save energy and run quieter, while also extending your appliance's lifespan.

Switch between freezer and refrigerator with a single click to match your storage needs.

LARGE CAPACITY

With 21 Cu.ft. capacity this upright freezer provides additional storage for frozen items and with the 5 shelves, 2 drawers and 5 in-door bins it makes organizing easy!

TOTAL NO FROST

Total No Frost technology ensures there is no frost build-up in the unit, so there's no longer any need to defrost the unit.

HiStyle

Practical design decisions,
ensuring an ideal match for every kitchen.

EASY-OPEN DOOR HANDLE

This upright freezer can easily be opened just by a pull of the metal exterior handle.

ELECTRONIC TOUCH CONTROL

Easy to use electronic controls. Adjust with one touch!

°F/°C TRANSFORM EASE

With 2 different type of temperature degree setting, you can use °F or °C according to your needs.

SOFT LED LIGHTING

Bright interior Lighting makes it easy to see what's inside.

HiComfy

Enhance the pleasure of your kitchen adventures.

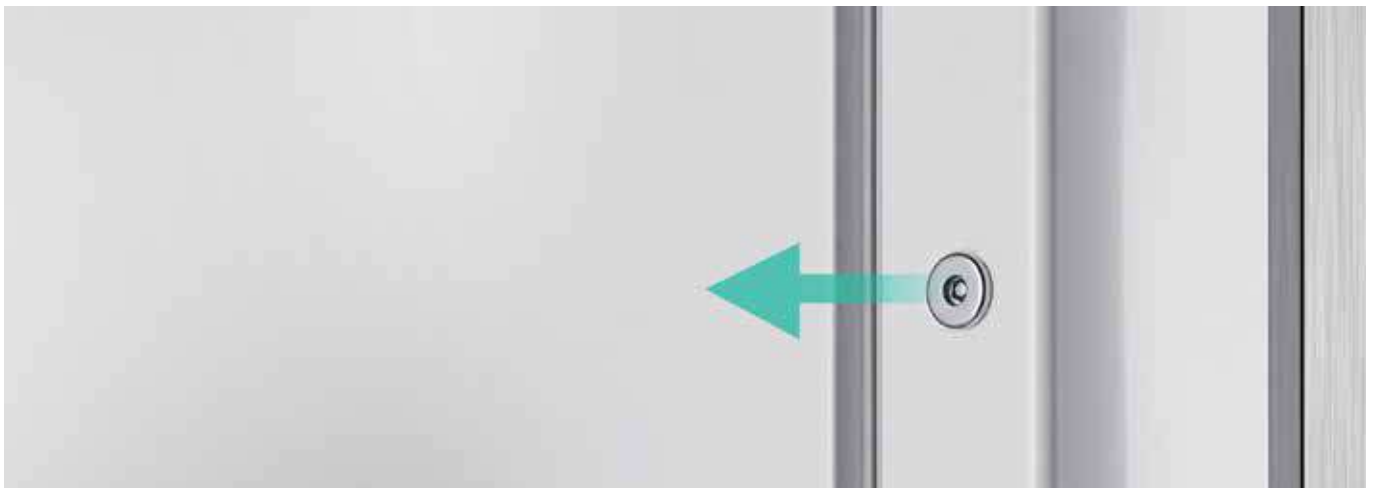

METAL SHELVES & DOOR BALCONY

Adjustable shelves and door bin storage allow make keeping your food storage easy,

MOVABLE BASKET

The movable basket provides a metal glide runner, so you can easily access big items quickly and conveniently in your basket inside.

SECURITY LOCK

The XXL Door Balcony from Hisense is the solution for larger items. The refrigerator's XXL Door Storage provides the perfect place to store larger items. The 105 mm wide shelf is up to any challenge and gives you quick access to the items you need most.

HiECO

Innovative green solutions for energy efficiency.

SASO C LEVEL

Energy star or SASO qualified helps you save money on daily bills without sacrificing performance.

DURABLE INVERTER

Fridges with Inverter Technology can help you save energy, and in turn save you money. Inverter Technology monitors the conditions inside your fridge and manages the output accordingly. It also ensures a more stable internal temperature, which helps extend the life of your appliance.

DOOR ALARM

This alarm will alert you should the door not shut all the way or if the freezer's temperature starts to rise.

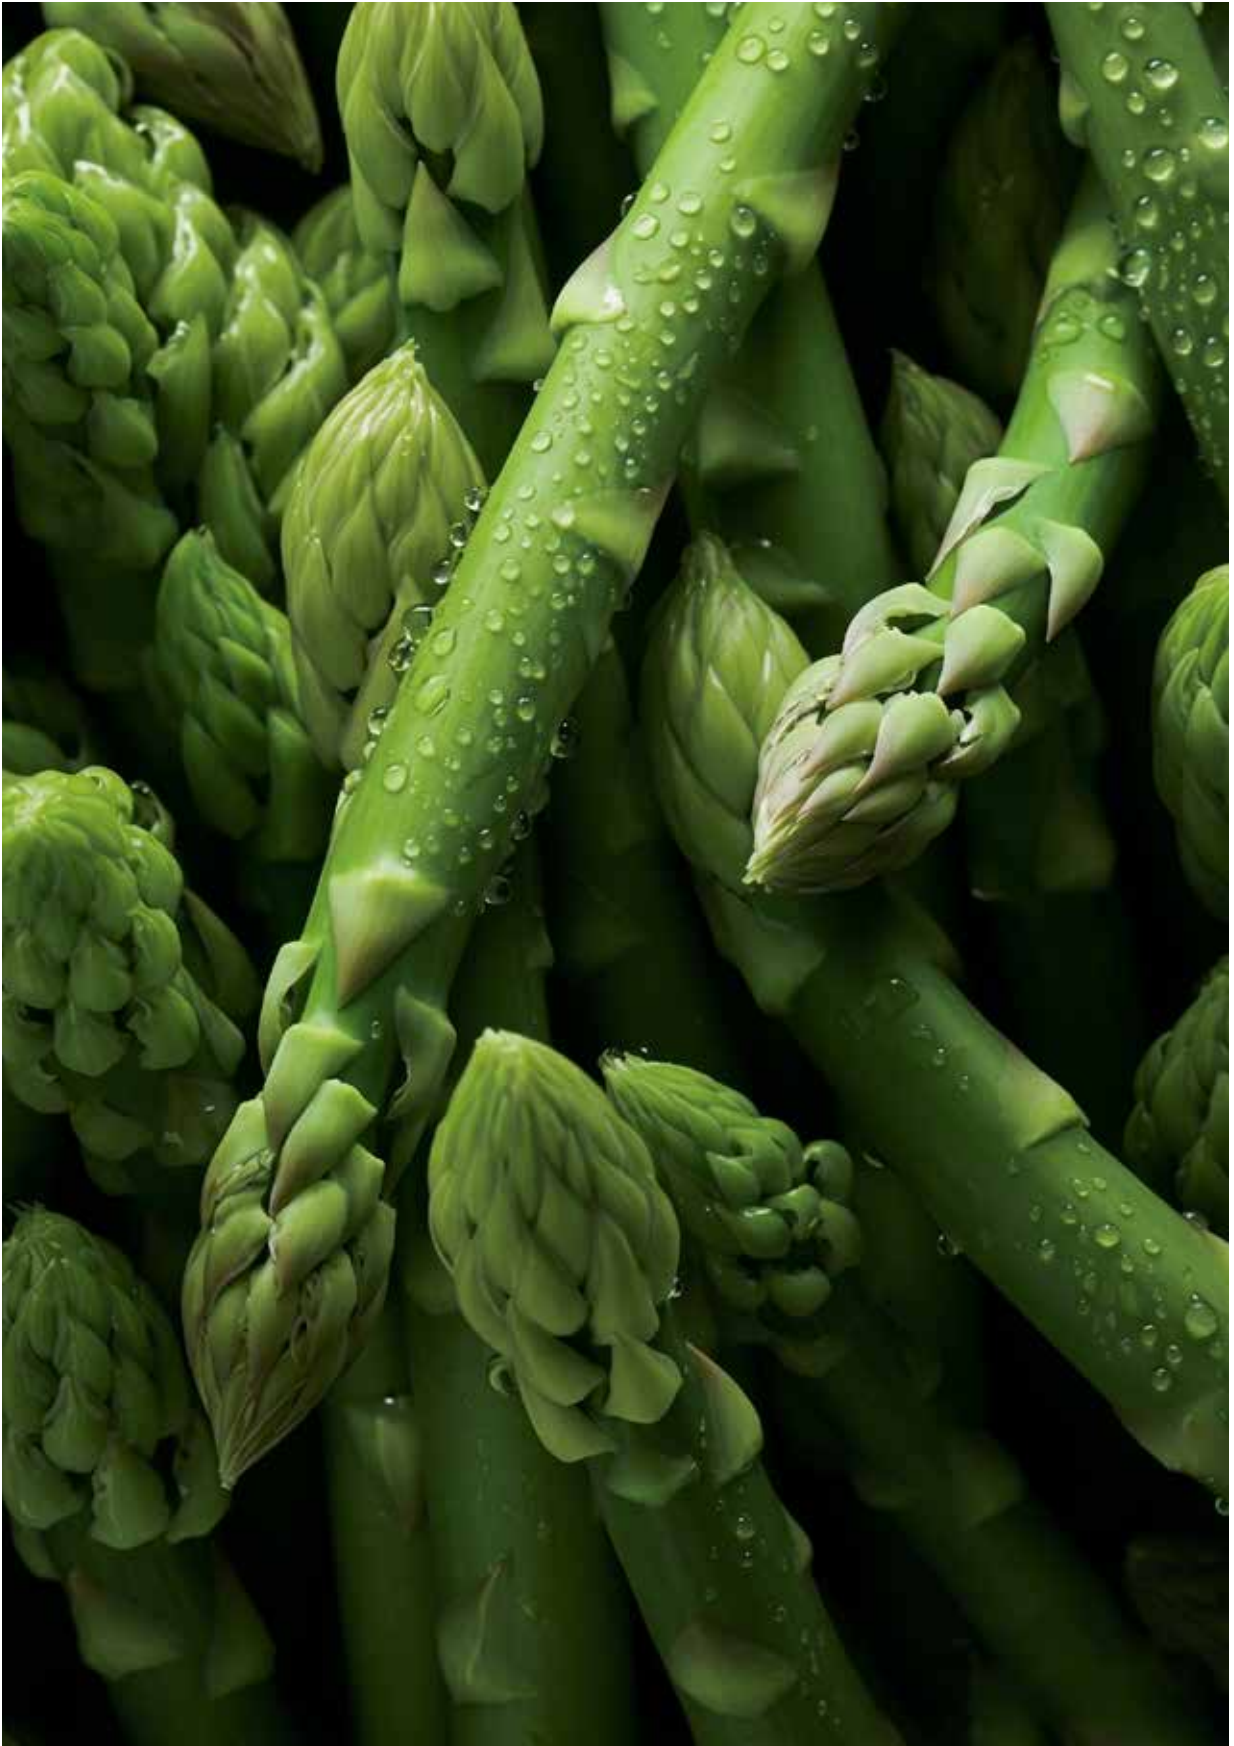

HiFresh

Innovative green solutions for energy efficiency.

 FAST FREEZE

Frameless Door and U-shaped integrated cabinet is elegant Design and easy to clean.

CHEST FREEZER

Hisense chest freezers provide plenty of space to store anyshape or type of food. It also has functions like my fresh choice and fast freeze, which allow you to have the best preserve condition for your food.

Deep Freeze, Wide Keep.

WINTER SECURITY

Hisense chest freezers feature built-in Winter Security technology, ensuring reliable freezing performance even in extreme cold as low as -15°C . Rest assured, your frozen goods stay perfectly preserved through harsh winter conditions—no matter how low the temperature drops outside.

KEEP FOR 135H

Hisense's chest freezers are designed to retain an exceptional amount of cold air. This means that even without power, your freezer will maintain a frigid 0°C for almost 6 full days; guaranteed to keep your food fresh until you return.

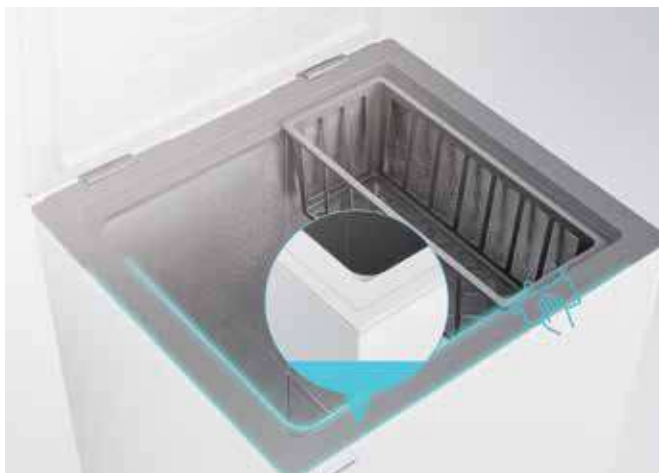

MY FRESH CHOICE

Take control with the intuitive touch panel, effortlessly adjusting your freezer's temperature to perfectly suit your needs—from deep-freeze storage to flexible chilling.

HiStyle

Practical design decisions,
ensuring an ideal match for every kitchen.

SEAMLESS FRAME

Traditional chest freezers have a visible frame between the lid and body, trapping dirt and looking outdated. Our Seamless Frame design eliminates this bulky border, creating a smooth, modern appearance while making cleaning easier than ever.

BOUNDLESS DOOR

"Less is more" defines this freezer's modern flat-top design. The boundless door features refined, smoother corners for a seamless look—elevating your space with premium integration into any kitchen or garage.

ELECTRONIC TEMPERATURE CONTROL

The user-friendly digital control panel enables you to easily change and view the temperature setting of your chest freezer and activate special functions such as Super Freeze, with just the touch of a button.

LED LIGHTING

Bright, cool, and energy efficient, the warm design of the LED light perfectly balances out the rest of the freezer's high-tech features. Because it gives off no heat, it is perfect for the freezer. The light illuminates every corner, meaning that all the contents are always in view.

RECESSED HANDLE

As interior design trends embrace minimalist, seamless aesthetics, Hisense chest freezers with recessed handles strike the perfect balance between style and functionality. The widened ergonomic grip ensures effortless access while maintaining a streamlined silhouette, enhancing both usability and modern appeal.

HiComfy

Enhance the pleasure of your kitchen adventures.

SMOOTH SLIDING BASKET

Is your freezer always crowded? Traditional baskets make it frustrating to find what you need – often requiring full removal and causing food to tumble out. Our upgraded sliding basket solves this with a smooth-gliding design that minimizes spills.

DOOR HOVER

The door is thoughtfully designed for your convenience, hovering in place when opened within a certain range. This makes it easy to organize groceries without needing to hold the door.

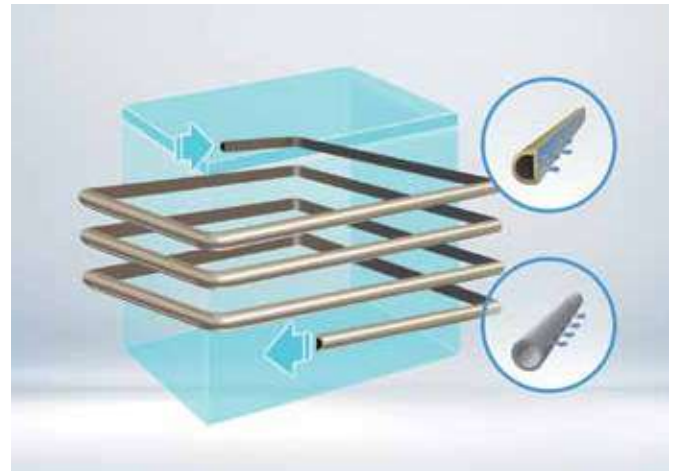

HiFresh

Enhance the pleasure of your kitchen adventures.

❄️ FAST FREEZE

The Fast Freeze function rapidly lowers the freezer temperature to -30°C for several hours, flash freezing the contents. This preserves the food's molecular integrity, retaining its natural taste, texture, and vitamins.

360° 360° COOLING

Thanks to Hisense's D-type cooling pipe, every side of the appliance is cooled evenly, allowing for more surface contact, and a more consistent and powerful freezing effect from all sides. This ensures a unilateral freezing environment, that leaves no corner of the freezer untouched.

HiECO

Innovative green solutions for energy efficiency.

⚡ DURABLE INVERTER

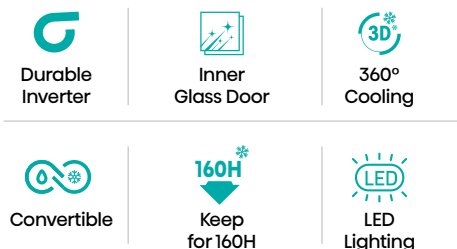

The compressor measures conditions inside your chest freezer and adjusts the cooling output accordingly, which saves energy, and makes it the perfect solution in a low-voltage environment. Run your refrigerator quieter and at a stable temperature, all while saving energy and extending your appliance's lifespan significantly.

COMMERCIAL APPLIANCES

From highest-quality material selection to refrigeration component design through to design development, long-term use of the appliances is always given top priority at Hisense. Models are therefore not only easy to load but also easy to clean, convenient to use, space-saving as well as energy-efficient and economical in continuous operation. And – they enable optimum product presentation. Attractive branding options enable you to effectively present your brand on Hisense appliances and stimulate impulse buying.

STYLISH APPEARANCE

The cooler is designed in premium flat door appearance with recessed handle, making it a perfect fit for modern stores. Different color options ensures that your cooler will be a visual focus.

DUAL INSULATED TEMPERED GLASS DOOR

The dual insulated glass door effectively increase the safety and durability of this beverage cooler. When tempered glass is broken, the glass breaks into very small pebbles to ensure that you won't be hurt.

CUSTOMIZED ADS DISPLAY

The LED sign panel allows you to show your graphic advertisements appealingly. You can customize the sign panel as you like.

HiStyle

Practical design decisions,
ensuring an ideal match for every kitchen.

INTERNAL FAN

The enlarged internal fan not only advances the cooling efficiency but also makes sure that the cooling air is distributed evenly.

EFFICIENT LED LIGHTING

Brighter and more efficient than standard fridge bulbs, LED lighting illuminates your products more appealing. More importantly, it also saves energy.

HOOK LOCK

As the cooler is designed with a Hook Lock, you can equip it with a lock and control when to open the door accordingly.

SELF-EVAPORATION SYSTEM

As the cooler is designed with a self-evaporation system, pouring water away manually is a thing of past. Condensation water of inner liner can flow to a drain pan and will evaporate automatically.

HiComfy

Enhance the pleasure of your kitchen adventures.

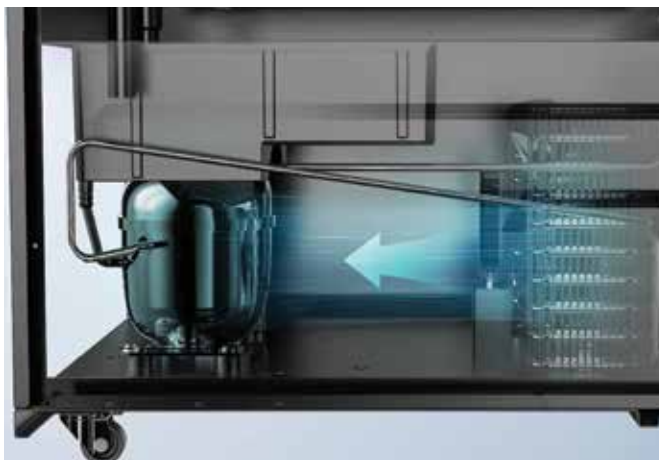

ADJUSTABLE SHELVES

You can enjoy flexibility with the adjustable shelves, as you are able to reposition the height of the shelves. This way all the large bottles or juice cartons will fit perfectly inside the cooler.

HiECO

Practical design decisions, ensuring an ideal match for every kitchen.

AIR BLOW SYSTEM

With Hisense air blow system, the fan near the compressor will blow directly at the compressor. In this way, the heat dissipation capacity can be improved.

ECO-FRIENDLY REFRIGERANT

The cooler uses environmentally friendly CH refrigerant, which promises high refrigerating efficiency while minimizing the impact to the environment.

FRONT LOAD WASHING MACHINE

Hisense's washing machine brings a better washing experience. ConnectLife, Smart Dosing, and Intelligent TFT Display can let your washing become much more smarter and convenient.

AI SUPER WASH

Leave the categorize work to us. 7 advanced sensors weigh and analyze your laundry in real time. It LEARNS from your feedback, adapting its cycles to continuously refine every wash. Get perfectly tailored results that improve with every load, and a lighter footprint on our planet.

iJET™

iJet™ technology takes your washing to the next level. Boost the effectiveness of every wash cycle by 38% with hybrid jet and recirculating jet, penetrating the fabrics deeply. Experience a noticeable difference in spotless results, giving your clothes the care they truly deserve.

UV LIGHT

Using an inbuilt UV light filtration system, the water used to rinse your clothing is cycled through the UV filter, eliminating up to 99.99% of bacteria, ensuring your clothes are pristine at the end of the wash.

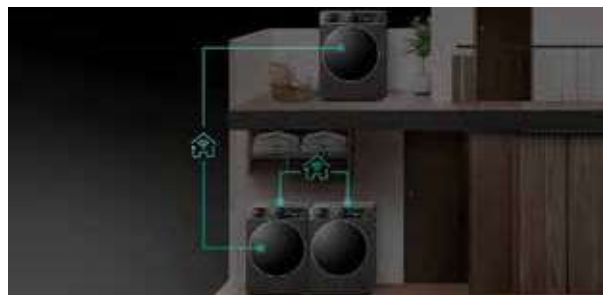

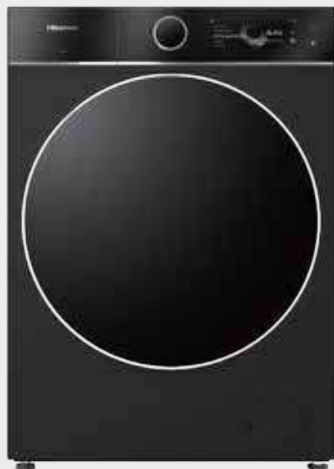

AUTO DOSING

Simply add your clothes, and the Series 5i will automatically select the precise amount of detergent based on the weight of loading. It can store up to 27 loads of detergent at one time. The left side can be selected to add either softener or detergent, providing more storage and garment care.

ConnetLife

Simplify your home management by integrating all your smart appliances and devices into a single user-friendly application.

SMART LINK

With Smart Link, when washing completes, your dryer auto-selects the perfect cycle. Just move clothes and press start – that's it.

SMART ASSIST

By choosing the fabrics type, color, dirt level and any other stain, the washing machine will wash your

clothes with a perfect combination of the right temperature, time, and water. Your clothes will always be in top shape.

ENERGY MONITORING

The appliance and ConnectLife app empower you to keep track of your water and electricity usage in real-time. It also offers personalized recommendations for optimal combinations, helping you save resources and reduce costs while maintaining efficiency.

TFT

INTELLIGENT DISPLAY

Featuring a 6.86-inch colorful TFT touch screen, you can set, control and stay informed about each wash.

 **iPLAY™**

The iPLAY™ 3.55-inch TFT screen enhances your laundry routine with vibrant color and clarity. It clearly illustrates cycles and functions, allowing effortless setting selection via knob or touch screen. Enjoy intuitive control and a sleek, modern design.

 **PURE JET**

The top-mounted spray jet keeps your laundry cleaner and healthier. It actively cleans the drum door, helps eliminate lint and mold, and ensures a thorough rinse with minimal residue.

 **QUICK WASH+**

Saving up to 59%* of laundry time by shortening wash cycle. The Power 49', Power 30' and Quick 15' deliver a fast and efficient clean. Power 49' for full load, Power30' for half load, Quick 15' for 1kg

ABAYA CARE

Specially tailored for abayas, with lower temperatures and softer drum movements to reduce friction on delicate fabrics. It helps protect fabric structure, maintain deep black and rich colours, and keep your abayas looking elegant, beautifully preserved.

iBUBBLE™

The soap box features an innovative roller design that thoroughly mixes the detergent to generate rich foam. The dissolution efficiency is increased by 29%*, delivering excellent cleaning results while reducing detergent residue.

ANTI CREASE

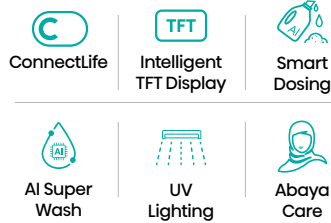

The Anti-Crease function gently rotates the drum in alternating directions every 4 minutes for up to 12 hours. It reduces wrinkles, providing you effortless smooth on clothes, reducing ironing needs, and preserving freshness.

HYGIENE GUARD+

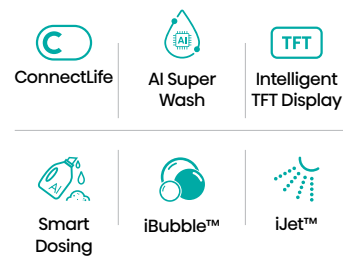

Activate the machine and observe as steam is released from the bottom of drum. The high-temperature steam thoroughly penetrates the clothes, helping to eliminate 99.99% of bacteria. With Baby Care and Sterile Rubber Seal Hisense washing machine cares for your health and your loved ones.

A modern laundry room with dark grey cabinetry and a countertop. On the countertop, there are several items: a white bottle, a white container with brushes, a stack of white towels, a black faucet, and two more white bottles. The background is a light-colored wall with a subtle shadow of the towels.

FRONT LOAD TUMBLE DRYER

Hisense's dryer brings a better drying experience. AI Laundry Agent, Voice Control, and AI Super Dry can let your drying become much smarter and more convenient.

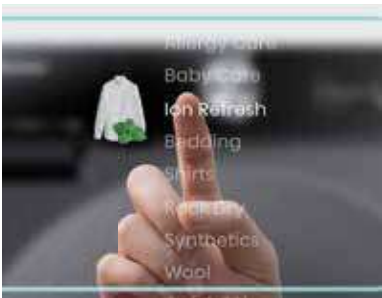

AI SUPER DRY

By humidity and temperature detection, the dryer will match suitable drying program and ideal drying temperature for your loads. With the help of sensors, the dryer will stop automatically when your laundry is done without damaging fabric.

UV LIGHT

Using an inbuilt UV light filtration system, the water used to rinse your clothing is cycled through the UV filter, eliminating up to 99.99% of bacteria, ensuring your clothes are pristine at the end of the wash.

INTELLIGENT DISPLAY

Featuring a 6.86-inch colorful TFT touch screen, you can set, control and stay informed about each dry.

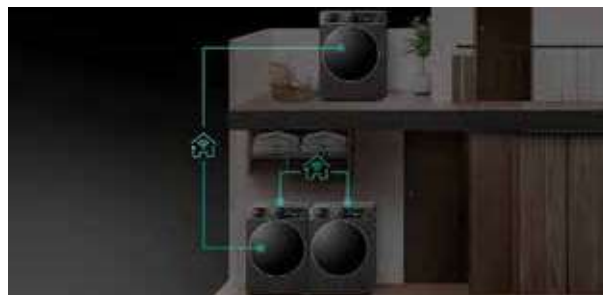

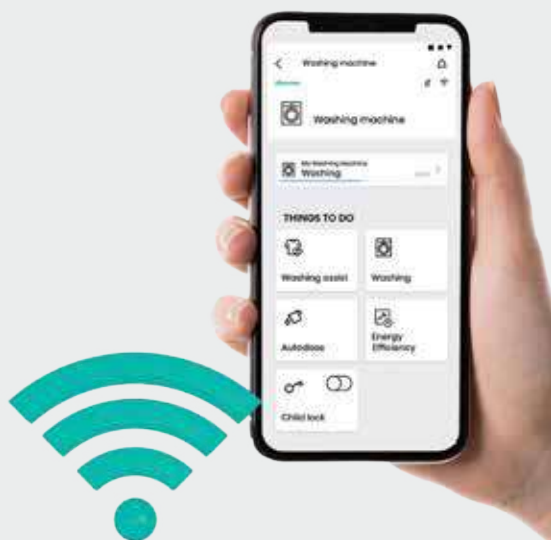

iPLAY™

The iPlay™ 3.55-inch TFT screen enhances your laundry routine with vibrant color and clarity. It clearly illustrates cycles and functions, allowing effortless setting selection via knob or touch screen. Enjoy intuitive control and a sleek, modern design.

ConnetLife

Simplify your home management by integrating all your smart appliances and devices into a single user-friendly application.

SMART LINK

With Smart Link, when washing completes, your dryer auto-selects the perfect cycle. Just move clothes and press start – that's it.

SMART ASSIST

By choosing the fabrics type, color, dirt level and any other stain, the washing machine will wash your

clothes with a perfect combination of the right temperature, time, and water. Your clothes will always be in top shape.

ENERGY MONITORING

The appliance and ConnectLife app empower you to keep track of your water and electricity usage in real-time. It also offers personalized recommendations for optimal combinations, helping you save resources and reduce costs while maintaining efficiency.

iDRY

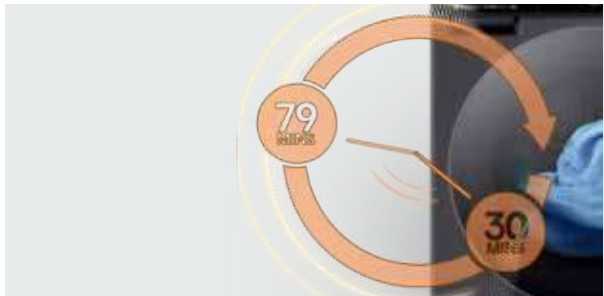

5i dryer stands out in the market with its highly efficient drying performance. In just 29 min, it can quickly dry 1 kg of laundry, for larger loads of up to 4 kg, it takes only 59 min to complete. Whether it's everyday small loads or the laundry needs of the whole family, this dryer handles it all with ease.

*This data is applicable to the model DH5I104BWAB. The other 5i models besides it dry 1kg load in 39min, 4kg load in 59min.

iCARE

Before your washing cycle starts, steam is released from the top of the drum, helping to remove wrinkles and odor. The right amount of water is then added, making your shirts smoother – without any ironing required.

QUICK DRY

Quick Dry Programs deliver efficient results when you need them most – dry 1kg in just 30 minutes or 4kg in 79 minutes, saving time without compromising fabric care.

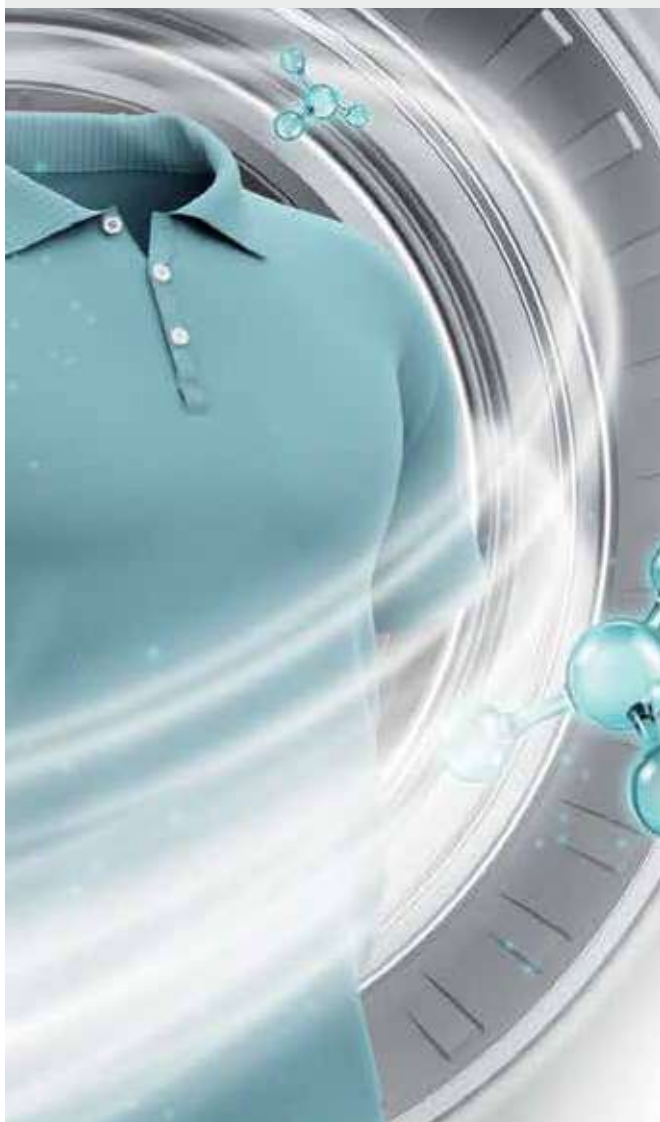

ALLERGY CARE

The sterilization drying uses high temperature hot air, which can remove 99.99% of Escherichia coli and Staphylococcus aureus without affecting the drying effect, leaving clothes dry and clean. No need to worry about allergy anymore.

ION REFRESH

Use the ions of the ionizer to penetrate deep into the clothes to easily remove odors from the clothes and keep the clothes fresh and natural, which is more energy efficient.

REVERSIBLE DOOR

This appliance features a versatile door design that can be easily adjusted to open from either the left or right side. This flexibility allows you to choose the best option based on your interior design, preventing collisions with walls or furniture and ensuring it fits seamlessly into any room layout.

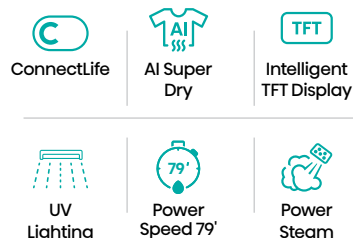

GENTLE DRY

Gentle Dry uses a relatively low temperature to dry your clothes, making it perfect for sensitive fabrics and delicate items without worrying about shrinkage anymore.

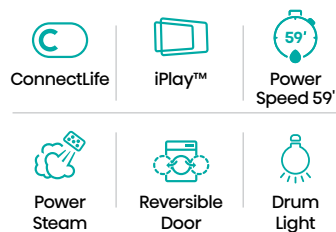

ANTI CREASE

No more ironing after washing, the drum will stop heating and tumbling intermittently every 5 minutes, minimizing wrinkling through the rotation of inner cylinders. Your clothes will come out fluffy and smooth after the program ends.

FRONT LOAD WASHER DRYER

Hisense's 2 in 1 washer dryer brings a better washing experience. AAAA Efficiency, Heat Pump System and 40 C Gentle Dry can let your washing become much smarter and more convenient.

AI SUPER WASH & DRY

Equipped with 13 sensors, Hisense X-zone Master auto-detects load weight, turbidity, and temperature to optimize wash-dry cycles, intelligently adjusting water/power usage. Flow agent and refrigerant sensors maximize energy efficiency, delivering precise results with zero manual input.

iJet™

Upgrade your laundry care with iJet™ technology. A cycling Jet boosts wash performance by 38%*, while the pre-mixing system fully dissolves detergent before it reaches fabrics for deeper, gentler cleaning. Finished with a pure water spray, removing bubble, lint and mould on the door seal.

DIV

Powered by 3 Direct Drive Motors, 5 Inverter and 8 Vibration Reduction Lifters, it delivers ultra-smooth, whisper-quiet performance. Enjoy just 49 dB noise and vibration below 0.3 mm during washing – even when all three drums run simultane-

HEAT PUMP SYSTEM

The appliance allows efficient heating. During the drying process, it can heat up the air inside the drum faster, to use the discharged heat circulating, improve drying efficiency, and make drying delicate clothes smoother.

ACTIVATED WATER

Powered by Activated Purified Water technology, it removes dirt more effectively while reducing limescale buildup and chlorine to help protect fabrics from fading. With over 95% descaling efficiency and 22% better stain removal, it redefines healthy laundry care.

AUTO DOSING

Your washing machine will automatically choose the precise detergent or softener dosage according to the weight of clothes. Better still, this machine can store up to 24 loads at one time – about a month without adding it again*

iPLAY™

The iPlay™ 3.55-inch TFT screen enhances your laundry routine with vibrant color and clarity. It clearly illustrates cycles and functions, allowing effortless setting selection via knob or touch screen. Enjoy intuitive control and a sleek, modern design.

ConnectLife × AI LAUNDRY AGENT

Simplify your home management by integrating all your smart appliances and devices into a single user-friendly application.

SMART NOTIFICATION

Input fabric type, color, stains. ConnectLife APP instantly analyzes via smart sensors & algorithms, crafts temperature/duration/water permutations, syncs optimal programs to appliances, and recommends detergents—delivering effortless care, lasting quality.

SMART ASSIST

By choosing the fabrics type, color, dirt level and any other stain, the washing machine will wash your clothes with a perfect combination of the right temperature, time and water. Your clothes will always be in top shape.

ENERGY MONITORING

The ConnectLife app empowers you to keep track of your water and electricity usage in real-time. The app also offers personalized recommendations for optimal combinations, helping you save resources and reduce costs while maintaining efficiency.

WASH&DRY 49'

The perfect solution for your everyday laundry needs! Say goodbye to the hassle of selecting the right washing cycle for small loads. This convenient feature ensures your clothes are washed and dried efficiently in just 49 minutes. Enjoy the ease and simplicity of caring with Wash&Dry 49.

40°C GENTLE DRY

To dry as gently, warm up like sunshine. With heat pump drying technology, it can achieve a 40°C temperature drying and automatically adjust the drying time, caring for delicate high-end garments such as wool and silk.

iFILTER™

Heat Pump Washer Dryer has a lint collector to filter out the lint during drying. By that, the product not only keeps your clothes clean but also maintains the cleanliness of the drying system itself, preventing lint accumulation. This results in a higher quality of drying, ensuring your clothes come out fresh and clean every time.

ABAYA CARE

Specially tailored for abayas, with lower temperatures and softer drum movements to reduce friction on delicate fabrics. It helps protect fabric structure, maintain deep black and rich colours, and keep your abayas looking elegant, beautifully preserved.

A minimalist wardrobe with hanging clothes and a woven basket. The wardrobe is open, revealing three white shirts and one dark blue shirt hanging on wooden hangers. Below the hanging clothes, a tall, cylindrical woven basket with a handle sits on a shelf. The background is a solid dark grey.

TOP LOAD WASHING MACHINE

Hisense's washing machine brings a better washing experience. AI Assist, One Touch AI Wash, and Color Play can let your washing become much smarter and more convenient.

iJET™

The iJet™ system revolutionizes laundry with one spray nozzle that pre-soaks the clothes and evenly distribute detergent. This innovative technology shortens wash time while enhancing stain removal, ensuring your clothes are thoroughly clean in less time.

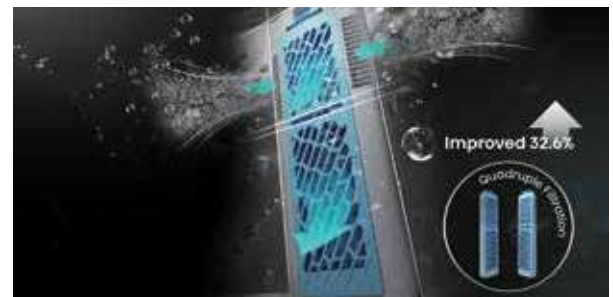

DD INVERTER

Hisense's direct drive technology employs frictionless mechanisms, enhancing motor efficiency, reducing energy waste and vibration, and ensuring such quiet operation that even a baby could sleep next to it. The addition of the 10 Year Motor Warranty further guarantees unmatched reliability and peace of mind.

iBUBBLE™

The iBubble™ system uses a powerful water vortex to fully dissolve and evenly distribute detergent, creating a dense foam for impeccable cleaning. It also reduces detergent residue and keeps the detergent drawer spotless.

iFILTER™

The filtration system filters water flow from three directions, particularly the left and right flow from the upper filter, removing lint and particles with 32.6% improved efficiency in safeguarding your clothes.

MEGA CAPACITY

The product can handle the young family's laundry in a single load. This saves valuable time and increases washing efficiency. The deeper drum design maximizes interior space and provides ample room for large loads without increasing the machine's footprint.

BUBBLE CLEAN

Get lost in clean! The detergent box has a labyrinthine structure that maximizes the dissolution of detergent and the formation of bubbles that penetrate deeper into the textiles. This innovative design promotes deep cleaning and ensures thorough stain removal and remarkably clean laundry with every wash.

SMART FUZZY

Smart Fuzzy automatically adjusts water levels based on load size, to ensure optimum cleaning performance while saving water and energy.

PET CARE

The Pet Care program uses high water levels and specialized filters to eliminate pet hair and allergens from your clothes effectively.

AQUA SAVE

Aqua Save retains the water from the last rinse cycle so that you can repurpose it for various household tasks, like watering plants or cleaning floors. This innovative feature not only saves water, but also reduces energy consumption and makes your laundry routine eco-friendlier and more cost-effective.

PUREFLAT LID

Effortlessly blending style and practicality, the PureFlat Lid provides a rimless, full-edge panoramic glass window. It is made of tempered glass for visibility and lasting strength, and has a soft-close mechanism for whisper-quiet operation.

AIR DRY

Air Dry can add an extra spin cycle after the washing program ends*. It sucks the excess water from your clothes through the inner wind circle, which allows for faster drying. You can get nearly wrinkle free clothes from your top load washing machine for when you're short on time.

*The default time of this program is 30 minutes.

SOFT-CLOSING LID+

The lid offers a large, edge-to-edge glass view for easy monitoring, crafted from durable safety glass with an improved soft closing mechanism for quiet, safe operation.

*The close damping is effective when it is not less than 10 degrees

DISHWASHERS

Powerful Washing, Healthy Living

The Hisense dishwashers transforms caring, functional and technical design into product manufacture, making it a much-loved part of your home. With its fully adaptable and flexible interior and a number of practical programs, Hisense dishwashers will take great care of you and your family and will make your life so much easier.

Effortless Control At A Glance

6.86" INTELLIGENT DISPLAY

The dishwasher features a 15 degree tilted 6.86" smart display. The thoughtful 15-degree tilt, an ergonomic design, reduces the need for bending or straining and ensures user comfort. The innovative 6.86" TFT display not only enhances the aesthetic appeal but also makes it easier for users to monitor or control the washing process.

AI SUPER WASH

The AI Super Wash technology can detect the load size and the dirtiness of the dishes to auto-adjusts detergent dosage, water volume, optimal temperature, and cycle duration. Impeccably cleaned tableware with zero guesswork — delivering flawless, sparkling results on every single cycle.

AUTO DOSING

The ultimate convenience in dishwasher. Fill the detergent compartment once, and enjoy up to 20 washers without refilling. Auto Dosing dispenses the perfect amount of detergent for each load, ensuring sparkling clean dishes every time. Simplify your life with automated, hassle-free dishwashing.

HEALTH & SMART

Smart Solutions, Healthier Homes

A fusion of innovation and care, caters to your wellness and convenience

AI ECO

The Dishwasher features AI ECO function, which can adjust water temperature and motor speed for optimal energy use. Through the TFT display, the users can instantly view water and energy ratings for each program, and track your consumption with weekly, monthly, and yearly dashboards. Enjoy powerful cleaning and develop eco-friendly habits effortlessly.

WIFI CONNECTION

The feature seamlessly integrates the dishwasher into your connected lifestyle. Control and monitor processes remotely from your smart devices. Whether you're at home or away, you can adjust settings, initiate washing, and stay updated with real-time notifications on cycle progress and potential issues. It's a dedicated assistant that's at your side, making sure your dishes are always ready when you are.

SMART LINK

The dishwasher seamlessly connects with your oven, automatically recommending the optimal wash cycle based on the recipe you cook. Enjoy effortless cleaning tailored to your meal, for spotless results every time.

CUSTOMIZED SMART CONTROL

Customize your dishwasher's display by pinning your favorite or most-used wash programs to the top of the home screen. Enjoy quick and easy access to the cycles that best suit your preferences and daily habits, making every wash more convenient and tailored to you.

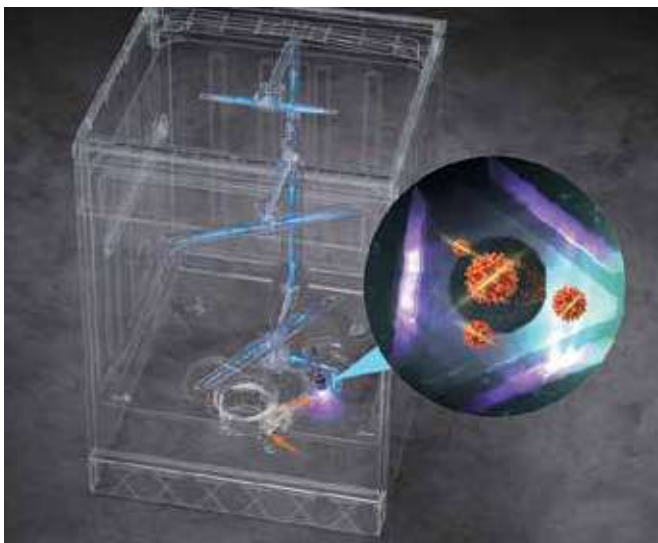

AUTO WASH

With Auto Wash, you can say goodbye to program selection. Simply load your dishwasher, press a button, and let the machine do the rest. The advanced sensor technology detects the level of soiling and adjusts the water temperature, wash time and spray intensity accordingly. This smart technology takes the guesswork out of dishwashing for an effortless and efficient cleaning experience.

WASHING ASSIST

Be at ease with the helping hand of ConnectLife's Washing Assistant. This feature simplifies your washing process by intelligently recommending the ideal programs based on your input and load. Answer the short questionnaire, and the assistant does the rest, adjusting settings for optimal cleanliness and care.

UV TECHNOLOGY

UV Light Sterilization is specifically designed to ensure your dishes are not just clean but hygienically sanitized. This powerful UV light technology effectively eliminates up to 99.9% of bacteria and germs, providing an extra layer of protection for your family. Enjoy peace of mind knowing that your kitchenware is not only spotless but also free from harmful microbes.

HYGIENE WASH

Hygiene Wash aims to deliver an unparalleled level of cleanliness and sanitation for your dishes. With 75°C high temperature and longer washing cycle for sterilization, it can effectively eliminate most of bacteria and germs, ensuring your dishes are not only spotless but also hygienically safe, ideal for cleaning baby bottles, mason jars, chopping boards and similar.

LOADING

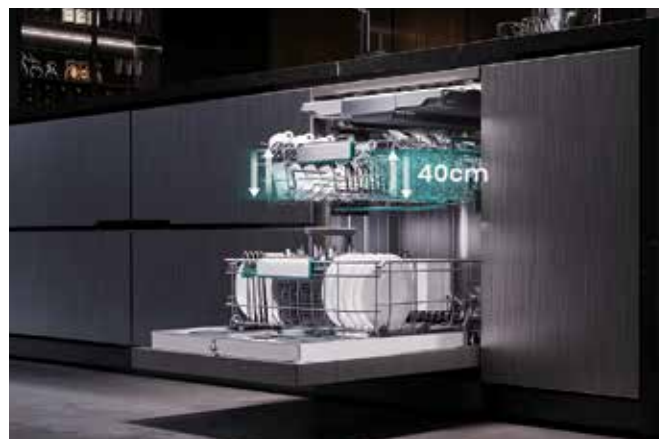

Adaptability With Every Load

A harmonious blend of space, adaptability and ingenuity

16 PLACE SETTINGS

The generous capacity of the dishwasher makes washing even up to 16 place settings an effortless and enjoyable experience. With plenty of room for the pots and pans, adjustable baskets and customizable interior design, you can accommodate a variety of dishware in all sizes and types in a single washing cycle.

EASY LIFTING

Make more space in seconds. No need to pull it out, the middle basket can be easily lifted higher, even when it is fully loaded, to provide enough space for even the largest plates and pots in the bottom basket, making this dishwasher truly flexible and easy to use.

GLASS HOLDER

Discover the art of gentle care with the Glass Holder. Using carefully designed slots and a unique cushioning system, it securely holds and protects fragile glasses throughout the washing cycle. The thoughtful design cradles each glass, delivering a superior clean that's also remarkably user friendly – sparkling clean, ready for your next toast.

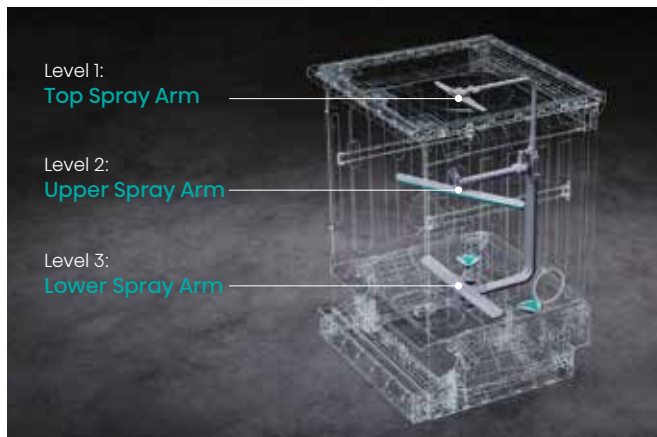

FLEXIBLE CUTLERY BASKET

The adaptable cutlery basket can be adjusted to fit all types of utensils, from large serving spoons to delicate teaspoons, ensuring everything is securely held in place. With its versatile design, you can easily customize the layout to maximize space and efficiency, giving your dishes a spotless clean every time.

WASHING

Unmatched Cleanliness, Unrivalled Care

Enhanced washing with the utmost care and precision

3-LEVEL WASH

Three Level Wash ensures comprehensive and efficient cleaning by directing powerful water to every corner of the dishwasher. The top, middle, and bottom spray arms work in unison to tackle even the most stubborn food residues, providing a thorough wash for all your dishes and cookware.

CORNER BOOST

Corner Boost is a groundbreaking advancement that the back corner is reached with special focus on the target zone. The additional spray arms with extra rotating nozzles at the bottom overcome even the most stubborn, burnt-on food residues, giving your kitchenware the thorough cleaning it deserves!

QUICK WASH

The cycle is perfect for lightly soiled dishes and can clean a full load in just 30 minutes with perfectly coordinated speed and performance. It offers a quick, convenient, and effective solution for every day and professional use, and is an ideal solution for busy individuals or families who need their dishes cleaned quickly.

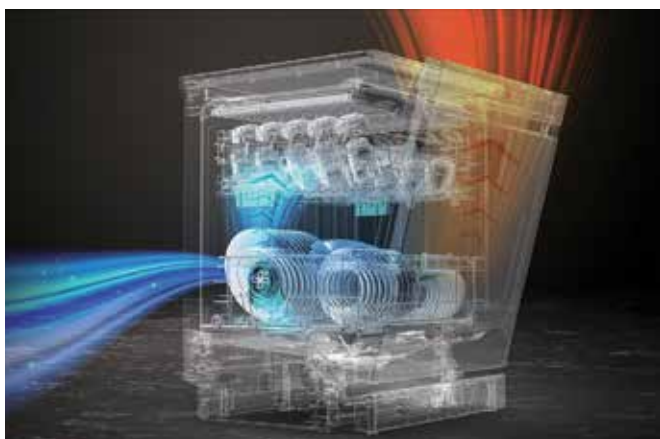

DUAL ZONE WASH

Upper, lower or both, Dual Zone Wash function provides a targeted cleaning in the selected washing zone. No need to wait for a full dishwasher to start a washing cycle, just enjoy the convenience of targeted cleaning tailored to your preferences and load size.

DRYING

Flawless Finish, Endless Shine

Ensuring all dishes are sparkling dry and free from water spots

SMART DRY

By integrating a special fan inside the tub of the dishwasher and combining the automatic door opening at the end of the wash cycle, the smart dry function ensures faster, energy-efficient drying, leaving dishes perfectly dry and ready for immediate use.

AUTO OPEN

Unload with ease and no extra drying. At the end of each cycle, the dishwasher door automatically opens slightly to allow excess steam escape, ensuring every item, from dishes to glasses, and even plastics is completely dry and ready for immediate usage.

FAN DRY

Accelerates drying with a forceful fan on the door that extracts steam through dedicated condensation pathways. Rapidly evaporates water from dishes and cavities. Delivers cool-to-touch, fully dry items in record time—no wiping needed, while cabinets staying steam-free. Dishes go straight from wash to storage. Ready when you are.

DRY+

Better drying with a simple boost. The Dry+ function raises the final rinse temperature by just 3°C to enhance water evaporation, delivering pristine, spotless dishes with minimal effort and energy.

USER CONVENIENCE

Simplified & Effortless Cleaning, Enhance Your Day

Truly convenient and user friendly – meet your everyday needs with ease

AQUA STOP

A user-friendly Aqua Stop function ensures your peace of mind. It works like a guardian, monitoring the water supply constantly and shutting off automatically when a leak or burst occurs. You can confidently keep your dishwasher running, even when you're not at home, without worrying about water damage to your appliances and kitchen.

INTERIOR LED LIGHTING

Illuminate the inside of your dishwasher with seamless LED Lights and ensure effortless loading and unloading. This bright, energy-efficient LED lighting ensures you never miss a spot, providing clear visibility even in low light conditions, making your dishwashing experience brighter and even more efficient.

INVERTER TECHNOLOGY

The Inverter Technology optimizes the dishwasher's performance and ensures a quiet atmosphere and effortlessly spotless dishes. This innovative feature seamlessly controls the motor and reduces the noise level to a remarkable minimum. Enjoy the peace and quiet of your home.

POWER OFF MEMORY

Power off memory function ensures that the dishwasher remembers its spot in the cycle and continues where it left off, even in the event of a sudden power outage. This maintains the efficiency of the appliance and there is no need to restart or repeat any steps.

COOKER

Smart Cooking. Master Living

Model

HGI9B20S-EG

Features

- Colour: Metallic grey
- SuperSize baking area
- Oven capacity: 110 L
- Mechanical minute minder
- One-hand ignition device for hob
- Wok triple burner, SABAF burners
- Matt enamel pan support
- Fan + Cooling fan
- Gas oven with gas infrared burner
- Closed door grilling, Double glazed oven door with one heat reflector (Compact Door)
- Gas safety switch, Gas thermostat
- 1 Deep tray, 1 Premium grill rack, Motorized turn spit, Wire guides

Specifications

Rated Voltage/Frequency: 220-240V ~ 50/60Hz

Gas Type: 30/30

Dimensions

Product dimension: W90 × D60 × H87 cm

Model

HFG90335RX02

Features

- Colour: Stainless steel+silver sideboard
- Glass Lid
- Oven Capacity: 115L
- 2 Hand Ignition - push button + knobs control
- Wok burner
- CAST IRON Pan Support
- Mechanical timer
- Convection Fan
- Door - 2 layers tempered glass
- 1 x Grid, 1 x Tray / Thermostat
- Turnspit roasting, Flame failure Device
- wired guide

Specifications

Rated Voltage/Frequency: 220-240V ~ 50/60Hz

Gas Type: 30/30

Dimensions

Product dimension: W90 × D60 × H85 cm

Model

HFG60422RX

Features

- Colour: Stainless steel + silver side
- Oven Capacity: 70L
- 2 Hand Ignition
- CAST IRON Pan Support
- Wok burner
- Oven Door: 2 layers removable tempered glass
- Gas Grill
- Inner Light
- Flame failure Device
- Rotisserie

Specifications

Rated Voltage/Frequency: 220-240V~ 50/60Hz

Gas Type: 30/30

Dimensions

Product dimension: W60 × D57 × H81 cm

Model

HFEC90545X

Features

- Colour: Stainless steel
- Cover material: Glass
- Glass Ceramic Hob, Expand Zone, Residual Heat Indicators, Easy Clean Surface
- Digital Timer
- 123L Cavity
- 9 Function Oven
- Fan Convection, Big Volume, Thermostat
- 2 Oven racks, 1 Oven lamp, Deep baking pan, 1 x Shelf grid, Warm drawer
- Enamel interior, Cooling door
- Triple layers glass removable door

Specifications

Rated Voltage/Frequency: 220-240V~ 50/60Hz

Temperature Range: 50°C - 250°C

Dimensions

Product dimension: W89.7 × D60 × H80 cm

Model

HFEC60331X

Features

- Colour: Stainless steel
- Glass ceramic hob with 4 zones
- Mechanical timer
- 9 Function oven
- Oven capacity: 70L
- 2 layers tempered glass
- Fan convection
- Enamel interior
- Defrost
- 1 Grill rack
- 1 Baking tray

Specifications

Rated Voltage/Frequency: 220-240V~ 50/60Hz

Temperature Range: 50°C - 250°C

Dimensions

Product dimension: W85 × D60 × H59.5 cm
