HISENSE GROUP

Hisense was founded in 1969. As one of the earliest Chinese enterprises to implement an internationalization strategy. In response to the national strategy of "going global," in 2006, Hisense established a "Brand Globalization" strategy and held the branding direction of "building trust since years, makes reliable Hi-Tech a reality in your home".

Hisense has always been committing to becoming a company that provides reliable smart home solutions through Hi-Tech quality products with reasonable prices.

At present, Hisense's overseas branches have covered Europe, America, Africa, the Middle East, Australia, and Southeast Asia, and other markets with its products have been sold in more than 160 countries and regions.

A high-angle, close-up shot of a modern kitchen countertop. The countertop is a light beige or cream color with a smooth, solid surface. On the counter, there is a small, round, light-colored ceramic pot filled with a lush green herb plant. To the right of the plant is a dark, rectangular glass bottle with a silver-toned pump dispenser. Further right, a portion of a white ceramic bowl is visible. The background is a plain, light-colored wall. The lighting is soft and even, highlighting the textures of the materials.

ELECTRICAL **COOKING**

MICROWAVE OVEN

The Hisense microwave oven lets you enjoy delicious food in no time. With the inverter technology and a precisely controlled food sensor, it can handle basically all the modern needs of cooking, including heating, baking, cooking, defrosting or grilling. Making your daily cooking routine simple and pleasant.

Perfect Cooking

User Friendly

MICROWAVE OVEN | Versatility Beyond
the Imagination.

INVERTER TECHNOLOGY

An Intelligent Way of Cooking

Inverter technology can generate continuous yet variable power output intelligently and automatically, to provide even heating and defrosting with high cooking efficiency and outstanding energy saving.

AIR CONVECTION

The microwave oven features a convection fan for the highest level of heat and air circulation, together with the 360° turntable, which results in food cooking faster and more evenly.

CRISPY GRILL

With the automatic grill programs, you can easily brown your favorite food for the perfect crust, while the interior of the food is properly cooked at the same time.

MULTI-STAGE COOKING

You can cook in 2 stages by manually programming the steps of cooking process to ensure all food are cooked at the perfect temperature in different stages without stop.

PRESET PROGRAMS

The products comes with 6-10 preset auto cooking menus, such as pizza, popcorn, potato and more. This enables you to cook with a simple button press.

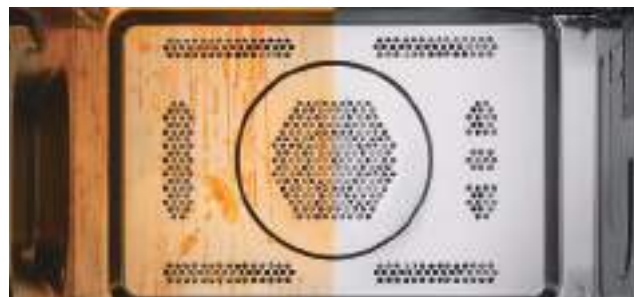

FLATBED DESIGN

Unlocks 40% more usable cooking space than a standard turntable microwave oven. Ultra - flexible design fits varied dish sizes, shapes & cooking needs with ease.

TIME AND WEIGHT DEFROST

By time and weight defrost options, you can simply input the weight, the defrosting power and time will be adjusted automatically, keeping the original texture and flavor of ingredients.

STAINLESS STEEL CAVITY

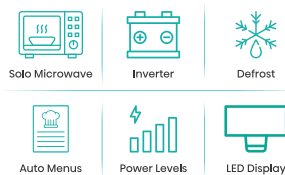

This model comes with a stainless steel cavity, which is durable and really easy to clean, saving your time for more delicious food.

AIR FRYER

The Hisense air fryer helps cook healthy and delicious meals. Unlike traditional deep frying, an air fryer uses 360° hot air to evenly cook all food types. This results in 90% less fat but the same crispy food such as French fries, juicy chicken, steak, pizza and so much more. Enjoy healthier food with your family with the new Hisense air fryer!

Perfect Cooking

User Friendly

AIR FRYER | Fry with Air, Free with Oil.

VISIBLE BASKET

Watch Your Food Cook

With a large-sized see-through window and a perfectly placed internal light, no need to open the basket, the cooking process is clear at a glance!

360° CIRCULATION

Heat is distributed evenly through the 360° air circulation which runs in a circular motion as well as from top to bottom and back up – ensuring every part of the food is reached and properly cooked through to inside.

DUAL COOKING ZONE

The air fryer provides two independent frying trays to cook different foods. Together with the SYNC Finishing Technology, both are ready to serve at the same time!

8 PRESET MENUS

The air fryer features 8 preset programs to help you from beginners to master chefs. Just press the preset menu and walk away, and come back to enjoy the fresh meal!

EASY TO USE TOUCHSCREEN

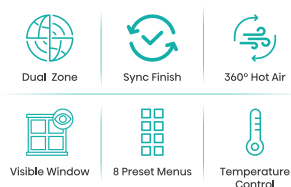

The air fryer features a stylish, colorful sensor touch control display. You can easily adjust time & temperature. Delicacies are available at a simple touch.

STRONG AND DURABLE METAL INTERIOR

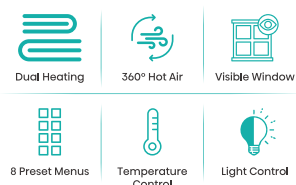

The inner cavity is made of high-quality metal material, which surpasses the ordinary plastic inner cavity. It will be stronger and more durable, and not easily scratched. There is no unpleasant odor of plastic material. It is safer and more reliable to use and gives you the greatest peace of mind.

TOASTER OVEN

The Hisense Mini Oven is a versatile kitchen essential that combines multiple cooking functions in one compact machine. Rotisserie, convection, and even an air fryer feature in one product, meeting a variety of daily cooking needs.

Professional Brewed

User Friendly

TOASTER OVEN | Bake, Air Fry, Roast
Master Every Meal

AIR FRY BASKET

This Mini Oven brings in air fry features to your kitchen. Cooking your favorite foods with up to 90% less oil and fat than deep frying, but still get perfect crispy golden finish and tender insides.

ROTISSERIE

Enjoy in this special type of roasting where meat is skewered on a spit. The rotation cooks the meat evenly and you can only enjoy in crispy crust taste!

CONVECTION

Convection mini ovens harness the power of a built-in fan to circulate hot air, ensuring your dishes cook evenly and quickly.

DOUBLE GLASS DOOR

Double glass door reduces the temperature difference between the inside and outside by 30% compared with the single-glass door, just easy, safe cooking.

AUTO MENUS

The Mini Oven features a stylish, colorful display. You can easily choose the preset programs. Delicacies are available at a simple touch.

HIGH-END DESIGN

A fascinating fusion of glass and mirror black finish creates an enchanting centerpiece for your kitchen. Smooth black glass reflects the light creating a spacious feel while sleek mirror black finish adds a touch of modern flair.

CAVITY LIGHT

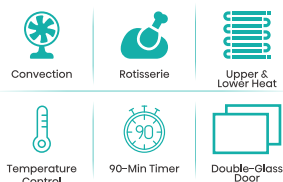

The cavity light in a mini oven allows you to easily monitor your cooking progress without opening the door, ensuring perfectly cooked meals every time.

COLORFUL DISPLAY PANEL

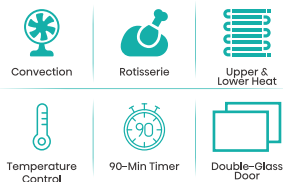

The Mini Oven features 12 preset programs to help you from beginners to master chefs. Just press the preset menu and walk away, and come back to enjoy the fresh meal!

BEVERAGES MACHINE

The Hisense beverage machine brings the café experience into your home. Designed for effortless preparation of rich espresso and perfectly crafted coffee, it combines powerful pressure with precise temperature control for consistently delicious results. From a smooth morning coffee to creamy, freshly frothed creations, its intuitive controls and versatile functions make enjoying your favourite beverages simple, quick and satisfying.

Professional Brewed

User Friendly

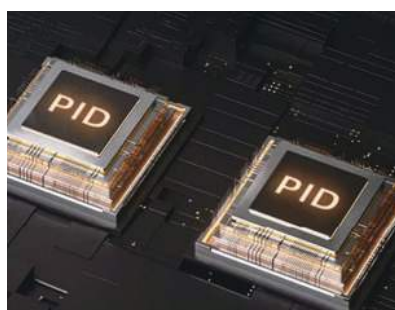

BEVERAGES MACHINE | Its Your Time to
Enjoy the Perfect Cup

BUILT-IN GRINDER WITH 20 SETTINGS

Enjoy coffee made from freshly ground beans with precision and consistency. The integrated grinder offers 20 different grind settings, allowing you to fine-tune the intensity and flavour of every cup. Whether you prefer a bold espresso or a lighter brew, your perfect grind is always just a dial away.

PID TEMPERATURE CONTROL

Great coffee depends on stable heat, and that's where PID technology makes the difference. By keeping water temperature consistent, it ensures smooth extraction, balanced flavour and the unmistakable Italian aroma in every shot. Say goodbye to burnt or weak coffee. Every cup is exactly as it should be.

HEAT COMPLEMENTARY TECHNOLOGY

Why wait when you can do both at once? Thanks to Heat Complementary Technology, you can brew espresso and froth milk simultaneously. That means faster cappuccinos, lattes, or flat whites. And more time to enjoy your coffee with no hurry.

FULL-TOUCHSCREEN INTERFACE

Simple, intuitive operation. Every data point displayed on screen: pressure, flow rate, temperature, water level, alerts. Complete control, full transparency, one touch away.

LARGE CAPACITY

Designed for everyday convenience, the HSACM20LPO features a 2.8 l water tank and a 260 g bean container. This means fewer refills, more fresh coffee and a smoother daily routine. It's the perfect combination of capacity and ease, tailored to a modern lifestyle.

PROFESSIONAL ACCESSORIES

Everything you need for authentic barista results comes in the box: stainless-steel portafilter with single and double espresso shot filter, a calibrated barista level tamper and a milk frothing jug. With these premium accessories you'll achieve consistent, café-quality coffee every time.

MINIMALIST PREMIUM DESIGN

The body features clean lines and a refined texture, free of unnecessary ornamentation. It seamlessly blends into modern kitchens or office spaces, expressing a restrained yet premium aesthetic in every detail.

EASY TO CLEAN

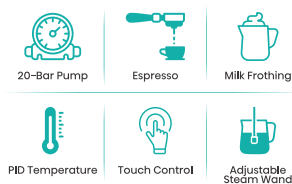

With the removable brewer, water tank, drip tray and coffee grounds container, it is much easier to clean and maintenance.

Hisense

A golden retriever is lying on a light brown, textured rug in a bright, modern living room. The dog is looking towards the camera with its mouth open, appearing happy. In the background, there is a large window with white curtains and a green curtain, offering a view of a lush green garden. To the right, a portion of a light-colored sofa with two cushions is visible. The overall atmosphere is warm and inviting.

HOME CARE

VACUUM CLEANER

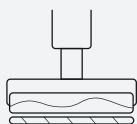

The Hisense Vacuum Cleaner and Spot Cleaner meets the cleaning needs of the new generation. Features like Dual-roller brush, easy Scraping function, extendable telescopic tube, and smart dust sensor make your cleaning tasks easier and smarter.

Professional Brewed

User Friendly

VACUUM CLEANER | Intelligent Cleaning
Innovative Performance

DUAL-ROLLER BRUSH

This dual-roller design effortlessly lifts dust from wall edges and tight gaps—solving the hassle of hard-to-reach corner dirt.

EASY SCRAPING FUNCTION

The dust cup features a built-in scraping lever—just flip it to wipe clean both the cup and stainless steel filter without touching the dirt—hassle-free and hygienic.

DUST-REVEALING GREEN LIGHT

Features a green COB light that makes dust and debris pop—even in dim, hard-to-see spots like under sofas or beds, so you won't miss a speck.

6-LEVEL ADJUSTABLE TELESCOPIC TUBE

The built-in telescopic tube adjusts across 6 levels (49.5cm–71.5cm), fitting users of all heights. Shorten it for easy floor cleaning, or extend to reach high spots.

SMART DUST SENSOR

Smart Dust Sensor takes the guesswork out—no need to pick a setting. It automatically adjust suction power based on the dust amount.

VERSATILE FOR MULTI-SURFACE FLOOR

Clean carpets, hardwood floors, tiles, and more with one floor brush. On carpets, its rolling brush dives deep to lift hidden dust and hair; on hard floors, it tackles dust, hair, and small debris effectively.

12-CYCLONE DUST-AIR SEPARATION TECH

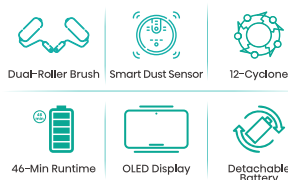

The 12-cyclone structure separates most dust particles from air. Only a tiny amount of fine debris ever reaches the filter—significantly reducing filter clogging and frequent maintenance.

DETACHABLE BATTERY

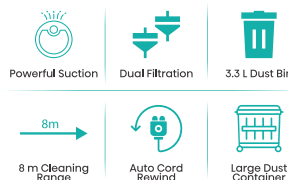

The detachable battery delivers up to 43 minutes of runtime per charge, ensuring ample power for thorough cleaning sessions.

LINEN CARE

GARMENT CARE

The Hisense Garment Care offers a variety of irons and garment steamers. Features such as anti-calc, anti-drip, self-cleaning, and touch AI screen handle all your ironing needs for various fabrics and life scenarios

Professional Brewed

User Friendly

GARMENT CARE | Iron Once, Wrinkle Less

ANTIDRIP

The AntiDrip feature safeguards your delicate fabrics, preventing any unwanted stains and ensuring they stay pristine and unblemished.

ANTI CALC FUNCTION

The anti-calc function is key to enhancing your steam iron's durability, preventing limescale buildup that harms performance and shortens its lifespan.

STEAM OUTPUT

Boasting powerful steam output, this iron effectively eliminates stubborn creases, leaving fabrics crisp and perfectly smooth with ease.

SELF CLEAN

The self-clean function keeps your iron in top condition, removing limescale buildup and ensuring consistent performance for long-lasting use.

SMOOTH GLIDING

The non-stick soleplate guarantees effortless, smooth gliding across various fabrics, enhancing ironing efficiency with minimal friction.

TOUCH-CONTROL STEAM HEAD

Our touch-control steam head simplifies ironing with a responsive on-head touchscreen. Tap to switch steam modes by selecting your fabric type, and it auto-adjusts steam intensity, temperature, and release.

MULTI-ANGLE IRONING BOARD

This ironing board adjusts to various angles for different clothes to fit your various ironing needs. Designed with ergonomics, you'll iron more easily without tiring your body. It's A practical upgrade for hassle-free garment care.

CLEANING & STERILIZATION

High-temperature steam kills 99.99% of bacteria and mites for deep cleaning. It reduces odor residues effectively, leaving clothes fresh and odor-free. Pressurized steam penetrates fabrics with no cleaning residues left.

ICE MAKER &

WATER DISPENSER

ICE MAKER

The Hisense electric automatic ice maker provides two size ice options and can produce 12-20KG* ice per day. And with a powerful but quiet compressor, the machine provides fast ice making effect with low energy consumption. Either party at home or away on holidays, with the Hisense ice maker, you can chill out anywhere, anytime.

Fast Ice making

Efficient & Quiet

ICE MAKER | Ice Your Life Up

FAST ICE MAKING

The machine can produce 12 pcs of bullet-shaped ice cubes per cycle in just 8 minutes and up to 20KG of ice in 24 hours. Now you can entertain your guests with all iced up drinks hassle free!

2 SIZES ICE CUBES

The Hisense ice maker can produce two sizes of bullet-shaped ice cubes. Fresh food preservation or chilling out your drinks, you can choose either to suit your needs.

SELF- CLEANING

The machine can self clean the inter tubes and the ice copper evaporator, and finally circles the water back into the water tank for easy and simple maintenance.

PRESET TIMER FUNCTION

This intelligent scheduling not only conserves energy but also integrates seamlessly into your life, making ice making simpler and eco-friendly.

AUTOMATIC ICE MAKING

The ice maker comes with an infrared sensor, which automatically detects if the ice is full and stop the ice production to prevent spillage, and resume the production when there is space for more.

BIG VIEW WINDOW

The ice maker features a big clear view window, which allows you to monitor the ice-making process. Stay in complete control and watch the magic unfold.

EFFICIENT & QUIET ICE MAKING

The ice maker is equipped with a powerful but quiet compressor, to provide fast ice making effect with low noise level and low energy consumption.

DIGITAL DISPLAY

The Digital display provides clear and easy-to-read information about the status of the ice-making process, which is typically designed to be intuitive and straightforward, making it easy for users to understand and operate.
